# IEEE International Symposium on Information Theory

June 29 – July 4, 2014  
Hawai'i Convention Center, Honolulu, HI, USA

## Call For Papers

The 2014 IEEE International Symposium on Information Theory will be held in Honolulu, Hawai'i, USA from June 29 through July 4, 2014. Interested authors are encouraged to submit previously unpublished contributions from a broad range of topics related to information theory, including but not limited to the following areas:

Coding theory and practice

Compression

Detection and estimation

Information theory in networks

Pattern recognition and learning

Sequences and complexity

Signal processing

Communication theory

Cryptography and data security

Information theory and statistics

Multi-terminal information theory

Quantum information theory

Shannon theory

Source coding

Researchers working in emerging fields of information theory or on novel applications of information theory are especially encouraged to submit original findings. Submitted papers should be of sufficient depth for review by experts in the field. Both submitted and final papers will be limited to 5 pages in standard IEEE conference format. If full proofs cannot be accommodated due to space limitations, authors are encouraged to post a publicly accessible complete paper elsewhere and to provide a specific reference. Authors should refrain from submitting multiple papers on the same topic.

The paper submission deadline is January 19, 2014, at midnight, Eastern Time (New York, USA). Notification of acceptance by March 30, 2014.

### TPC Chairs

Sae-Young Chung

Gerhard Kramer

Olgica Milenkovic

Urbashi Mitra

### General Chairs

Anders Host-Madsen

Aleksandar Kavcic

Venugopal V. Veeravalli
